Flow

Children may choose at least 1 project to do at home over the half term. This gives the children chance to be responsible for their own learning and to be creative at home. All completed projects are due in on Monday 23rd May 2017. Good luck!

1. How many songs can you list that mention water or rivers? Get your family and friends to help – and then have some fun singing a selection!
2. Write your own poem about rivers or water.
3. Visit a gallery and look at river paintings. Draw, paint or take photos of a beautiful river scene.
4. Grow something edible using soil. Potatoes are easy to grow and tasty to eat!
5. Be a landscape gardener! Visit a garden centre and look at water features. Design your own garden.
6. Make a rain gauge and use it to measure rainfall in your garden.
7. Put on wellies on a wet day and go on a puddle expedition. See who can find the biggest puddle, then splash through it!
8. Race raindrops down a window. Choose on to watch and see what happens as it meanders down and comes into contact with other droplets.
9. Find out how to save water around the home. Make a list of top tips to advise your family on water conservation.
