Potions

Children may choose at least 1 project to do at home over the half term. This gives the children chance to be responsible for their own learning and to be creative at home. All completed projects are due in on Monday 13th February 2017. Good luck!

1. Make a list of all the solids, liquids and gases you can find at home. Are they kept safely?
2. Make a sketch of any interesting bottles you have at home. Remember to add patterns, textures, shading and finer detail.
3. Make a home-made perfume or potion using things you find in the garden or bathroom. Check with an adult before you start about which substances are safe to use. Use a pestle and mortar to grind up the things you find. Add liquid and strain to get rid of the lumpy bits. What have you made?
4. Calculate how many litres of water it takes to fill your bath. Which uses less water, the shower or the bath? How can you find out?
5. Make ice lollies at home. Can you add a special ingredient that reveals itself as the ice melts?
6. Visit your local library or book shop to search for other plays and stories on the theme of potions. Write a book review and share it with others.
