

Summer Term Week 9

1. **Maths-** We are now subscribed to White Rose as a school so I have download this week and placed all the videos and worksheets you need into a folder on the website called **Maths Week 9– you can then choose the appropriate year group folder-** **Maths Year 3 Week 9 Lessons and Worksheets.** Or **Maths Year 4 Week 9 Lessons and Worksheets** (all these worksheets will be in your packs from school as well) As we had two weeks for half term we will be doing last weeks lessons so don't worry if it says **W/C 22nd June-** that is the week you need to do. Please contact me if you have any questions or problems at claire.dunsire@sandylane.bradford.sch.uk.

This term the Maths and English are the main tasks to complete and then your child can choose from the other areas. We have tried to be as clear as we can with the learning in order to support you at home but remember you can contact myself or your class teacher if you have any questions as we are happy to help. Mrs.Dunsire

Science

I hope you found out lots about Lions last week and you enjoyed trying to draw them using the video.

This week I have added a power point to the website labelled 'Science Week 9 Power Point ' After reading the clues try to guess the animal and then click and drag the square away to see if you are correct. Work through the power point and see how many animals you guess correctly. Now look at the pictures of the animals below and write three clues for each animal- just like in the power point.

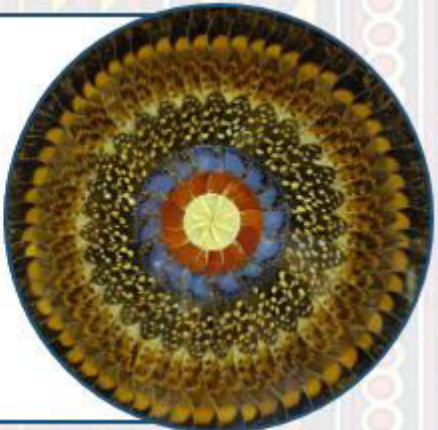

Creative Curriculum.

Art – This week I would like you to look at the information below about African patterns, you can then use pens, pencils or paints to re-create some of the patterns . Choose your favourite pattern or you could do a few

Patterns used in African art fall into two groups:

- Geometric – patterns that use zigzags, chequerboard, curved lines, spirals and circles.
- Symbolic – patterns that use images which have some symbolic meaning for the artist and the person using the art, whether it be on a piece of clothing or a building. These images can include crescents, stars, flowers, seeds, trees and pods.

favourite pattern or you could do a few

Inspiration All Day

It's easy to see where the inspiration for art comes from in Africa.

different ones.

Use the patterns on the next page to help you.
